

MY VALUES

NICOLE

MY TECHNICAL SKILLS

Dedication and consistency is values learnt over the years of schooling as life had taught me at a very young age that I should always be **DEDICATED AND CONSISTANT**

I grew up in a very punctual home. One value that was put into me by force rainstorm or sunshine was I taught to always be punctual in this life.

Being taken to church as young child has taught me to always have faith and not judge the beliefs of others.
PRAY TO GOD EVERYDAY
+ + +

SPREAD LOVE AND BE KIND ALWAYS
YOU MAY JUST BE A NEXT PERSONS HEALING!!!

- * I loose interest quick.
- * At times doubt my faith
- * Communicating my problems.
- * Easily take peoples opinion to heart.
- * Opening Up.

**HOPE
LOVE
PEACE
HAPPINESS
FAITH**

Having a vision of changing the world is not something that will ever just happen overnight dedication and consistency is a must.

With my biggest fear being a life changer in this cruel world there is certain values I need. The biggest value in my life is punctuality because there if wave everything starts I have this belief if you look good you feel good and if you feel good you basically do good therefore punctuality is a big for me and is something I without everyday.

We need God in our daily lives therefore prayer and faith is another value in this life which will help me achieve my goals because with God all is possible.

Everywhere I go and everyone I come across I try to be kind as possible I come to learn in this life that another persons kindness might just save the next person or me and deal with different stuff.

I matriculated in 2015 got my first actual work experience in a call center from there I moved to Home of Compassion a community college where we were introduced to a 6 month web readiness programme and skills required in a BPO call center environment. We were taught about setting up a cv or what information to use. Following means as well as computer readiness.

* Secondary School introduced me to computer classes as well as previous work experiences. I have also done a course with a NIGC.
I am very creative and this is a skill God blessed me with. I grew up in a household where we used to be taught different recipes we were taught to bake cakes as well as do our own sewing so I can be self taught in alot of my technical skills that I don't have any certificates perhaps to prove these skills but its more like a method of just me to test.
* Attended a neighborhood watch safety with the department of safety I was also given the chance to enhance my creative skills
* Attended a Conflict and Mediation course also with NIGC.
* Trauma and Healing course Chrysalis.

SKILL I WANT!
FACILITATION SKILLS
LIFE COACHING

BARRIERS
Finance as these courses are expensive. Home situations doesn't allow us to go to college to get skills it sends us to working for money to survive.
Lack of resources and support.

HOW AND WHERE CAN I GET THIS?
FACILITATION AND LIFE COACHING COURSES ARE AVAILABLE IN HIGHER INSTITUTIONS AND IT CAN BE APPLIED FOR THROUGH THE INSTITUTION OR YOUR CHOICE EITHER.

I would like to go from nation to nation where there is a change I can make it is then where I want to work but if all starts in my community the place behind my whole vision.

I would like to be a station of hope.
* An Influencer
* Community Leader
* Change maker
* Healer both physically and emotionally.
* Bring hope to the hopeless.
